Why is accounting important?

Accounting is not only important for statutory compliance, but also important to provide financial information through data analytics for management in decision making.

Good accounting is fundamental criteria to provide quality financial information for management in order to make the right decision.

We need to maintain an efficient and effective accounting system in order to generate management financial information timely.

What can we do?

Business combination and Consolidation

With globalisation for SME, business combination and consolidation are crucial areas to look into it.

We can help you on the accounting for business combination such as purchase price allocation exercise under acquisition.

We have developed an consolidation tool to help you to prepare the group financial information in an efficient manner.

What else can we do?

Accounting for compliance with statutory requirements

The financial reporting standards are getting sophisticated than ever before. We can help you to prepare the accounts in compliance with the relevant accounting standards, such as:

- Goodwill impairment assessment
- Accounting for redeemable convertible preference share
- Employee share option scheme
- Impairment assessment in non-financial assets
- Other accounting compliance
- Data analytics

What else can we do?

Accounting Backlog & Clean-Up Engagements

- Reconstruction of incomplete or disorganised accounting records
- Rectification of historical accounting errors
- Preparation of overdue financial statements
- Alignment of accounts with audit and tax requirements
- Support through audit clearance and regulatory submissions
- *Ideal for companies facing audit deadlines, funding discussions, or management transitions.*

What else can we do?

IPO & Special Project Experience

- IPO readiness assessment and execution support
- Preparation of financial statements, forecasts, and disclosures
- Due diligence and regulatory documentation
- Coordination with underwriters, auditors, lawyers, and consultants
- Valuation, pricing analysis, and investor-related support

What else can we do?

Contract & Interim Finance Roles

- We regularly take on **contract, interim, and project-based roles**, including:
- Interim Finance Manager / Financial Controller
- Accounting Lead during staff turnover or restructuring
- Temporary audit, IPO, or system implementation support
- Short-term accounting clean-up and reporting projects
- This model allows businesses to **access senior expertise quickly and flexibly**, without long-term commitments.

How we work?

- Hands-on, practical, and delivery-focused
- Comfortable operating in incomplete or high-pressure situations
- Collaborative with auditors, accountants, and legal advisors
- Clear communication with founders, directors, and stakeholders
- Our role is to **solve problems, not create complexity.**

How we work?

Working With Our Public Accountants

- All consulting and advisory services are delivered **in collaboration with our Public Accountants**, ensuring:
- Proper regulatory oversight
- Strong technical compliance
- Practical execution support
- Clients benefit from **end-to-end solutions**, from compliance to growth.

What do we have?

We have an accounting system which can help you in:

- Financial control
- Operations control
- Business intelligence
- Mobility

This accounting system is far more economy for SME.

The data in the system can be transformed for data analytics efficiently.

We also have a consolidation framework to prepare consolidated financial information in an efficient manner.
