Audit & Assurance

TT Profession

Audit & Assurance

Audit and assurance services are not only for compliance with statutory requirement, but also provides an independent level of scrutiny to the company's financial statements and accounting systems to reduce the risk of misstatement.

We adopt the risk base audit approach to perform our audit in order to identify the risks arising from operations, financials and corporate governance.; and provide resolutions.

This will provide a high degree of confidence to stakeholders of the company on its financial statements reported on

Audit & Assurance
